

Thota Sreenidhi

Computer Science Engineering (AI & ML) Student

✉ sreenidhithota12@gmail.com [in](#) LinkedIn [GH](#) GitHub ☎ 7207813252 📍 Hyderabad, Telangana

Profile Summary

Computer Science Engineering (AI & ML) undergraduate with experience building and deploying full-stack applications and machine learning systems. Skilled in Java, Spring Boot, Python, REST APIs, and data structures and algorithms, with 300+ problems solved on LeetCode.

Education

Chaitanya Bharathi Institute of Technology (CBIT) 2024 – 2028
B.E. in CSE (Artificial Intelligence & Machine Learning) **CGPA: 9.01/10**

Sri Chaitanya Junior College 2021 – 2023
Intermediate (MPC) **96.4%**

Technical Skills

Programming Languages: C, C++, Java, Python

Frameworks & Web Technologies: Spring Boot, Spring Security, REST APIs, JWT, Streamlit, HTML5, CSS3, JavaScript

Databases: PostgreSQL, MySQL, MongoDB, H2

Machine Learning & AI: Supervised & Unsupervised Learning, Feature Engineering, Model Evaluation, PCA, Ensemble Methods

Tools & Platforms: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Jupyter Notebook, Power BI

Coding Profiles: [LeetCode](#), [HackerRank](#)

Projects

Siblings Kitchen – Full-Stack Food Ordering Platform Java, Spring Boot, PostgreSQL, JavaScript — [GitHub](#) — [Live](#)

- Developed and deployed a full-stack food-ordering platform using Spring Boot, PostgreSQL, and a responsive HTML, CSS, and JavaScript frontend.
- Secured customer and administrator workflows using JWT authentication, BCrypt password hashing, and role-based authorization.
- Designed REST APIs and data models for meals, categories, carts, checkout, orders, subscriptions, and customer profiles.
- Implemented monthly meal subscriptions, delivery and self-pickup workflows, order tracking, and administrative order management.

Student Performance Predictor Python, Scikit-learn, Streamlit — [GitHub](#) — [Live](#)

- Built an end-to-end machine learning pipeline to predict student performance using academic and behavioral features.
- Applied data preprocessing, PCA, and cross-validation to train and compare multiple machine learning models.
- Deployed a Streamlit application for real-time predictions and feature analysis.

A* Maze Solver and Pathfinding Visualizer Python, Tkinter, AI — [GitHub](#)

- Implemented A* pathfinding with the Manhattan-distance heuristic to determine optimal routes through grid-based mazes.
- Built a Tkinter interface to visualize node exploration and final path generation.

Certifications

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate [\[Certificate Link\]](#)
- Google Cloud – Prompt Design in Agent Platform Skill Badge [\[Credential Link\]](#)

Achievements & Activities

- Solved **300+ problems** on LeetCode covering data structures, algorithms, dynamic programming, graphs, and SQL.
